ENDOSPHERE PROCEDURES

- Endosphere body therapy 30min EUR 30.00
- Endosphere body therapy 45min EUR 40.00
- Endosphere body therapy 60min EUR 60.00

Endospheric therapy – is a safe and painless treatment that benefits the body on several levels from the skin to the lymph, veins, fat and muscles in the first session. It eliminates visible imperfections and has a beneficial effect on the body as a whole, as well as on the veins.

Exposure:

- Improves blood circulation, strengthens blood vessels and capillaries;
- promotes lymphatic drainage, prevents oedema, cleanses the body of slags and toxins;
- stimulates collagen and elastin synthesis;
- increases skin tone, speeds up metabolic processes;
- treats all stages of cellulite;
- reduces the volume of fat cells;

- Endosphere face therapy (until 1h) EUR 55.00

An innovative rejuvenating facial treatment to fight the signs of ageing, suitable for all skin types at any age.

Principle of action

Endosphere therapy is based on a manipulator consisting of microspheres and works on the principle of compression and micro-vibration. Endosphere therapy for the face addresses various skin problems and is suitable for ageing of the face, neck and décolleté, muscle tension and oedema.

Result:

- Improved microcirculation – oxygen supply to cells;
- Increased production of collagen and elastin;
- Wrinkles are smoothed;
- Facial oval is strengthened;
- Under-eye puffiness disappears;
